

PRODUCT DATA SHEET

PAPER JOINT TAPE - RS405

DESCRIPTION

A micro perforated paper joint tape, with a center crease ideal for reinforcing flat joints and internal angels.

TECHNICAL DATA

Width	50mm
Length	150m
Weight	0.78kg
Service Temperature	-30°C ~ +120°C
Applying Temperature	+10°C ~ +40°C

EXTRA STRENGTH FOR STRONG JOINTS

Drywall Joint Tape is manufactured from special cross-fibered paper with high tensile strength, both with and across the paper grain. Average cross tensile strength produces joints as strong as the board itself. Drywall Joint Tape also possesses exceptional wet strength, resists stretching, wrinkling and other distortions, lies flat and resists cracking and stretching.

The above information is given in good faith and for guidance only. The user shall be responsible for determining that the performance of the product is sufficient for his application. The quoted values are based on averages and should not be taken as maximum or minimum values for specific purposes.
